Earam Educational and Rural Development Society is Planning to sketch out its next development project. It is proposed to build an evening tuition center and free Dispensary to give health care at Thuthipet village. This initiative aims at providing formal and non-formal Education to Government school children who do not get special educational attention at schools and school drop outs in that area. It also has an enlightened vision of providing NEET training for village students to make their dreams of becoming doctors and professionals true. We need financial help, Volunteer teachers and Materials for the construction of the tuition center.
